Our Mission

UNIQUE mission to "offer a product of rich appearance that is affordable at a variety of price points," by offering products from ultra-premium luxury to entertainment/lifestyle and accessible price points to match the lifestyle of our consumers.

UNIQUE entrepreneurial culture is driven by a spirit of "FASTER. FURTHER. FREER" that gives us the agility to make fast decisions, push boundaries and support creativity. Our goal is to help individuals research and purchase beauty instruments in a one stop-shop type of environment. We strive to provide a wealth of accurate information, competitive prices, and great customer service to facilitate the purchasing process.

Quality Policy

We at **Unique** Medical Systems are committed to taking care of our customers. We demonstrate this commitment by striving to exceed their expectations, both with the quality of our products and the services we provide.

This level of quality demands the effective maintenance of a quality management system reflective of our core competencies as Beauty tools specialists. The quality management system includes processes that ensure compliance to regulatory requirements and conformance to ISO 9001- 2008. Key to our success is the planning, establishment, communication, achievement, measure and review of quality objectives at all relevant functions and levels. Success involves every employee, each of whom is individually responsible for the quality of their work, resulting in a continually improving working environment for all.

This policy is provided and explained to each employee during annual awareness training, and its continuing suitability is regularly reviewed by senior management.

Unique Medical Systems

25 years of history: a strong tradition of which we have engaged the most advanced technology. Adding also typically tasteful design.

The company.

Excellence comes also from the territory. UNIQUE was born in a district suited to the workmanship of blades and metals.

Over 200 manual steps.

We have studied and the machines helped us realize our vision of excellence. But we have also maintained the craftsmanship tradition: our people, whom handed down the craft from one generation to the other, make on each Instrument many manual working-steps, searching for perfection.

From our hands to yours: meticulous tests for each Instrument. Before arriving into your hands, each Instrument is tested meticulously by the hands of our experts.

A product that is pleased for the excellence of material and style in the design.

We collaborate with great hair stylists, Nail artists we work with them for obtaining common satisfactions.

Customer focused.

Who knows us knows that we can always find a ready answer to every need.

Quality Objectives

The top level objectives of the Quality Management System are:

To maintain an effective Quality Management System conforming to ISO9001 2 .

To maintain a level of quality which enhances "UNIQUE" reputation with customers.

To ensure compliance with relevant statutory and safety requirements.

To endeavor, at all times, to maximize customer satisfaction with the services provided.
